ORIGINAL EDITABLE LAYOUT / EDUCATIONAL

[Your research question] [in one clear sentence]

[Author names] | [Affiliation, only if accurate]

[ONE SENTENCE: WHAT YOUR EVIDENCE SUPPORTS]

[Name the main result and its scope, not a promise of impact.]
[Say what was measured and what remains uncertain.]
[Choose a canvas only after confirming actual event and printer rules.]

1 / QUESTION & CONTEXT

[Why does this question matter?]
[What precise gap do you address?]

[Keep the audience and setting explicit.]
[Define important terms once.]
[State the scope of the claim.]
[Cite the source behind the context.]

2 / PROCEDURE

[Describe the design or analysis.]
[Name the inputs and sample, if any.]
[Explain how outcomes were measured.]
[State exclusions and assumptions.]

[Separate the method from findings.]
[Include relevant uncertainty.]

3 / EVIDENCE PANEL

[Figure title and measurement unit]

[PLACE YOUR OWN FIGURE HERE]

[Use a labelled axis and unit.]

[Keep data and uncertainty visible.]

[Caption: what is shown, how obtained,
and what the figure cannot establish.]
[Add source or original-data credit.]

4 / LIMITATIONS & NEXT STEP

[Describe the main uncertainty or constraint.]
[Say which conclusion your evidence does NOT support.]
[Give one justified next step rather than an unsupported impact claim.]

REFERENCES / ASSET CREDITS

[List the references actually used. Replace placeholders before sharing.]
[Credit figures, photos and datasets; confirm their reuse permissions.]
[Remove or replace any unsupported affiliation, logo or claim.]
